

NOTICE

Changes to Maximum Petroleum Price Regulations

The New Brunswick Energy and Utilities Board sets maximum prices for petroleum products sold in New Brunswick as per the Petroleum Products Pricing Act. In accordance with changes to New Brunswick Regulation 2006-41 (Petroleum Products Pricing Act) that took effect on April 13, 2007, the method for calculating maximum prices for Ultra-Low Sulphur Diesel fuel (ULSD) and Furnace Oil (No. 2) has been amended. As per subsections 4(1)(d) and 4(1)(e) of the General Regulation, maximum prices for these products are now calculated for winter blending, based on the percentages at Schedule A.1, listed below:

SCHEDULE A.1

Month	Motor fuel Ultra-low sulphur diesel		Heating fuel Furnace oil	
	Base product % Platts New York Cargo ULSKero	Base product % Platts New York ULSDF	Base product % Platts New York Cargo Jet	Base product % Platts New York Cargo #2
January	85	15	77	23
February	82	18	75	25
March	65	35	54	46
April	0	100	0	100
May	0	100	0	100
June	0	100	0	100
July	0	100	0	100
August	0	100	0	100
September	23	77	23	77
October	60	40	62	38
November	80	20	76	24
December	85	15	77	23

The maximum petroleum prices set by the Board, effective September 6, 2007, reflect these changes.
